

FAITH COMMUNITY HOSPITAL AND BLUE CROSS BLUE SHIELD OF TEXAS REACH NEW IN-NETWORK AGREEMENT

Faith Community Health System (FCHS) is pleased to announce that Faith Community Hospital has reached a new agreement with Blue Cross Blue Shield of Texas (BCBSTX) to return the hospital to in-network status for BCBSTX members.

Frank Beaman, CEO of FCHS, stated, “We are proud to welcome Blue Cross Blue Shield of Texas patients back to Faith Community Hospital as in-network participants. Our mission has always been to serve our communities with accessible, high-quality healthcare close to home. This agreement allows more families to receive the care they need right here in their own community.”

While the Faith Community Rural Health Clinics in Jacksboro, Graham, Bowie, and Alvord have remained in-network, this new agreement marks a significant step forward for Faith Community Hospital in strengthening access to local healthcare for patients and families across Jack County and the surrounding region.

David Spiller, General Counsel to FCHS, added, “This agreement represents a positive and collaborative step forward for both organizations and, most importantly, for the patients we serve. I want to thank Blue Cross Blue Shield of Texas’ leadership and contract team for their partnership and commitment to making this agreement a reality. Restoring in-network access at Faith Community Hospital enhances continuity of care, reduces financial uncertainty for patients, and reinforces the importance of strong partnerships in sustaining rural healthcare delivery.”

Effective within ninety days, patients covered by BCBSTX will now have in-network access to hospital-based services at Faith Community Hospital – improving affordability, continuity of care, and peace of mind for those seeking treatment close to home.

“This agreement represents a financially responsible step forward for Faith Community Hospital while continuing to prioritize patient access to local care. It strengthens the hospital’s long-term sustainability and allows us to keep investing in the services and infrastructure our communities depend on,” said Jeff Casbeer, Chief Operating Officer for FCHS.

This agreement reflects a shared commitment between FCHS and BCBSTX to ensure rural Texans maintain access to high-quality, community-based healthcare.

FCHS provides comprehensive healthcare services to residents of Jack County and surrounding communities through Faith Community Hospital and its network of Rural Health Clinics located in Jacksboro, Graham, Bowie, and Alvord.
